

# PUSH PLATE

Deliberate opening for  
all types of automatic doors

## Technology

- Mechanical
- Radio when used with the EAS RF Receiver (control box) and EAS RF Transmitter (remote control unit)

## Activation

- Opening by simple push on the plate

## Look

- Choice of attractive shapes (round, square or jamb) that fit into every architecture
- Steel face plate pleasant to touch
- Invisible when flush mounted

- Robust and esthetic push plates range for the opening of all kind of automatic doors
  - Can be radio-controlled with the optional pocket-size remote control unit (EAS RF Transmitter)
  - Really suited to the comfort of disabled people
- **Simple opening** by pushing on the plate.
  - **No more cable** nor groove in the wall needed when the PUSH PLATE is installed in its radio controlled version.
  - Bare plate or with handicap logo and/or "push to open" **imprint**.
  - Adequate box for either **flush or surface mounting**.
  - Stainless steel material for the push plates range available in square, round and jamb mount versions
  - Weather ring to ensure **watertightness**.
  - The EAS RF options are available on request.
